Alaska Medical Assistance Newsletter

Alaska Medicaid Health Enterprise Application

Affiliated Computer Services, Inc. (ACS) was awarded a contract to replace the current Medicaid Management Information System (MMIS) with new technology that will improve services to providers and Alaskans enrolled in Medicaid. The new system, Alaska Medicaid Health Enterprise, uses the Internet to dramatically change the way we have done business for the past 20 years. Alaska Medicaid Health Enterprise will offer providers the capability to access data through a secure interactive website 24 hours a day, seven days a week. There will be options for submitting and correcting claims, checking claim status online, verifying patient eligibility, and receiving payments electronically through Electronic Funds Transfer (EFT). Alaska Medicaid Health Enterprise will be available in the summer of 2010. To learn more, visit <http://www.alaskamedicaid.info>.
